

# Coronavirus Disease 2019 (COVID-19)

## Union County Health Department

### Epidemiological Update

December 9, 2021

#### Case Data as of July 1, 2021

Cases as of July 1, 2021	3,787
Case Rate <sup>1</sup>	7,241 cases/100,000 residents
School-Aged <sup>2</sup> Cases Since July 1, 2021	1,079
School-Aged Cases in Previous 2 Weeks	64
<b>Total Community Cases Data</b>	
<b>Case Counts</b>	9,095
Confirmed Cases	5,958
Probable Cases	3,137
Median Age (Years)	37
Average Age (Years)	37.8
Minimum Age (Years)	<1
Maximum Age (Years)	98
Range of Illness Onset Dates	January 13, 2020 – December 7, 2021
<b>Incarcerated Cases</b>	<b>639</b>

<sup>1</sup>The case rate is defined as the number of COVID-19 cases divided by the Union County population reported in the 2010 U.S. Census

<sup>2</sup>School-aged is defined as those between 5-19 years of age

#### Sex of Cases<sup>1</sup>:

<sup>1</sup>This information does not include incarcerated cases

#### Health Status of Cases<sup>1</sup>:

<sup>1</sup>This information does not include incarcerated cases

<sup>2</sup>Deaths are counted by county of primary residence as listed on the death certificate. Temporary housing such as a skilled rehabilitation facility, dormitory, or correctional facility is not typically listed as a primary residence. Cases are counted by county of residence as provided by the patient at time of diagnosis. This is in accordance with the ODH.

This data was collected at 10:00 AM on 12/9/2021

## Severity of Illness Among COVID-19 Cases Reported in Union County

<sup>1</sup>Mild illness includes those who were able to recover at home
